

Home Security Checklist

Use this as a guide as you check your home for safety measures. Boxes marked “no” indicate areas where you could take action to improve your home’s security. These are just some of the steps you can take to decrease the likelihood that you or your home is targeted.

Exterior Doors	Yes	No
All doors are locked at night and every time we leave the house – even if it’s just for a few minutes.		
Doors are solid hardwood or metal-clad.		
Doors feature wide-angle peepholes at heights everyone can use.		
If there are glass panels in or near our doors, they are reinforced in some way so that they cannot be shattered.		
All entryways have a working, keyed entry lock and sturdy, single cylinder deadbolt lock installed.		
All deadbolt strike plates are secured using 3-inch screws.		
Spare keys are kept with a trusted neighbor, not under a doormat or planter, on a ledge, or in the mailbox.		

Garage and Sliding Door Security	Yes	No
The door leading from the attached garage to the house is solid wood or metal-clad and protected with a quality keyed door lock and single cylinder deadbolt.		
The overhead garage door has a latch so we do not rely solely on the automatic door opener to provide security.		
Garage doors are all locked when leaving the house.		
The sliding glass door has a strong, working latch.		
A dowel or a pin to secure a glass door has been installed to prevent the door from being shoved aside or lifted off the track.		
The sliding door is locked every night and each time we leave the house.		

Protecting Windows	Yes	No
Every window in the house has a working lock and is securely pinned.		
Windows are always locked, or when open for ventilation, window pins are in place allowing the window to open six (6) inches or less.		

continued on back

Outdoor Security	Yes	No
Shrubs and bushes are trimmed so there is no place for someone to hide.		
There are no dark areas around our house, garage, or yard that would hide prowlers.		
Every outside door has a bright, working light to illuminate visitors.		
Floodlights are used appropriately to ensure effective illumination.		
Outdoor lights are on in the evening – whether someone is at home or not, or a photocell or motion-sensitive lighting system has been installed.		
Our house number is clearly displayed so police and other emergency vehicles can find the house quickly.		

Security When Away From Home	Yes	No
At least two light timers have been set to turn the lights on and off in a logical sequence when we are away from home for an extended time period.		
The motion detector or other alarm system (if we have one) has been activated when we leave home.		
Mail and newspaper deliveries have been stopped or arrangements for a neighbor/friend to pick them up have been made when we go away.		
A neighbor has been asked to tend the yard and watch our home when we are away.		

Outdoor Valuables and Personal Property	Yes	No
Gate latches, garage doors, and shed doors are all locked with high-security, laminated padlocks.		
Gate latches, garage doors, and shed doors are locked after every use.		
Grills, lawn mowers, and other valuables are stored in a locked garage or shed, or if left out in the open, are hidden from view with a tarp and securely locked to a stationary point.		
Every bicycle is secured with a U-bar lock or quality padlock and chain. Bikes are always locked, even if we leave them for just a minute.		
Firearms are stored unloaded and locked in storage boxes and secured with trigger guard locks.		
Valuable items, such as televisions, stereos, and computers have been inscribed with identifying numbers approved by local police.		
Our home inventory is up-to-date and includes pictures and serial numbers. A complete copy is kept somewhere out of the house.
